Executive Summary

This report describes the participants, participation levels, and outcomes of the 2012-2013 LAUSD Beyond the Bell Tutoring program for Supplemental Education Services (SES). Participant data includes the gender, ethnicity, English Learner (EL) status, and grade level of students. Outcomes measured include students' changes in **Scholastic Reading Inventory (SRI) Lexile®** and **Scholastic Mathematics Inventory (SMI) Quantile®** Levels. Relationships between Beyond the Bell Tutoring participation and these key outcomes are examined.

During the 2012-2013 school year, a total of **709** Kindergarten through 12th grade students participated in Beyond the Bell Tutoring for SES. Participant demographics, participation levels, and outcomes are reported and compared in the following sections of this report.

Outcomes

Scholastic Reading Inventory (SRI), Scholastic Mathematics Inventory (SMI)

Beyond the Bell Tutoring participants are grouped by academic subject into one of three participation categories for greater accuracy. Each group of students, or tertile, is based on the number of hours of participation in Beyond the Bell Tutoring. Tertile groupings were determined by assigning each participant a percentile rank and dividing them into three equal percentile groups (1st-33rd, 34th-66th, 67th-99th). These tertiles, or “program participation categories”, are used in the analysis of measurable outcomes throughout this report.
